Rosco Product # 206 36300 0000

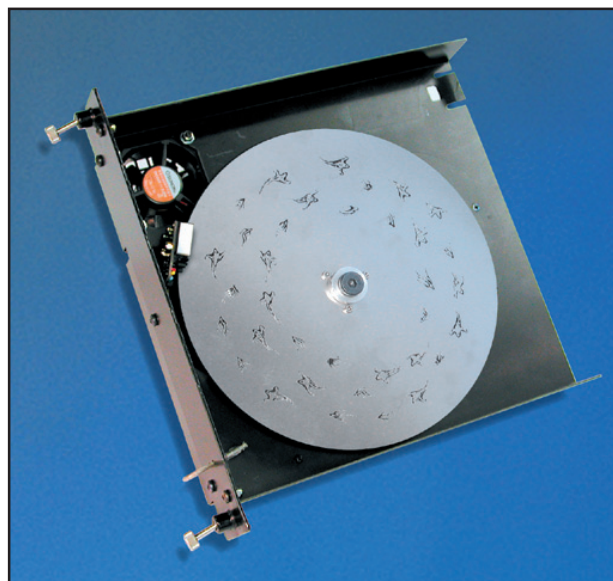

#106 Soft Dots Effect

PRODUCT DESCRIPTION

- Excellent choice for display, retail, theatrical or special event applications
- Slides into SX4[®] Case mounted in ETC Source Four[™]
- DISC/FX patterns available off-the-shelf or custom design
- Can be DMX operated or used with built-in preprogrammed sequences

The SX4[®] Disc Tray is designed to fit into the SX4[®] Case which is attached to an ETC Source Four[™] fixed focus ellipsoidal spotlight (see SX4[®] Case Specifications).

The SX4[®] Disc Tray has been used for special events, theme parks, and live events to create moving effects. By using off-the-shelf designs from the GAMPRODUCTS catalog or a custom disc to meet special requirements, it is a reliable, efficient and easy to use projection device. It can be operated remotely using DMX control signal, or with built-in automatic sequences that operate when the unit is powered.

SX4[®] Disc Tray
US Patent # 6,926,427
August 9, 2005

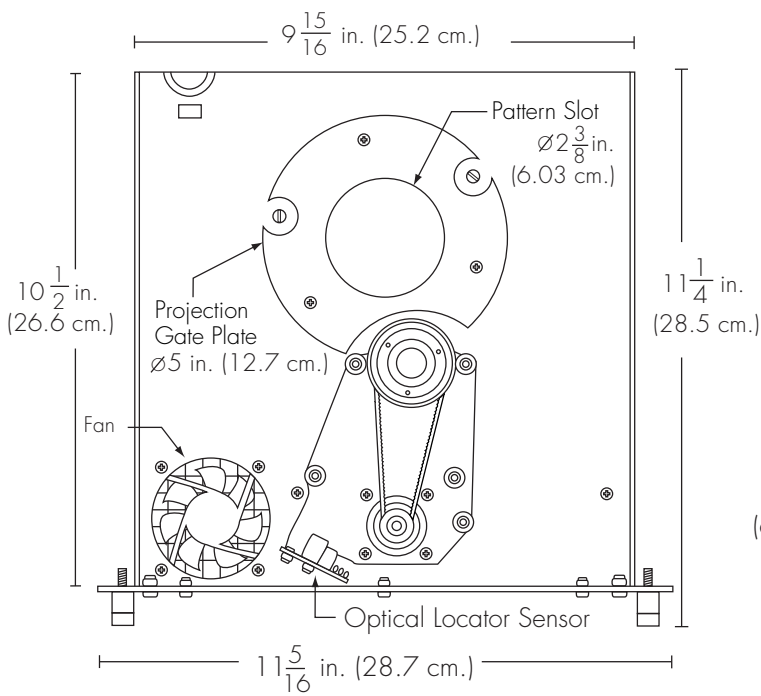

PRODUCT SPECIFICATIONS

Dimensions:

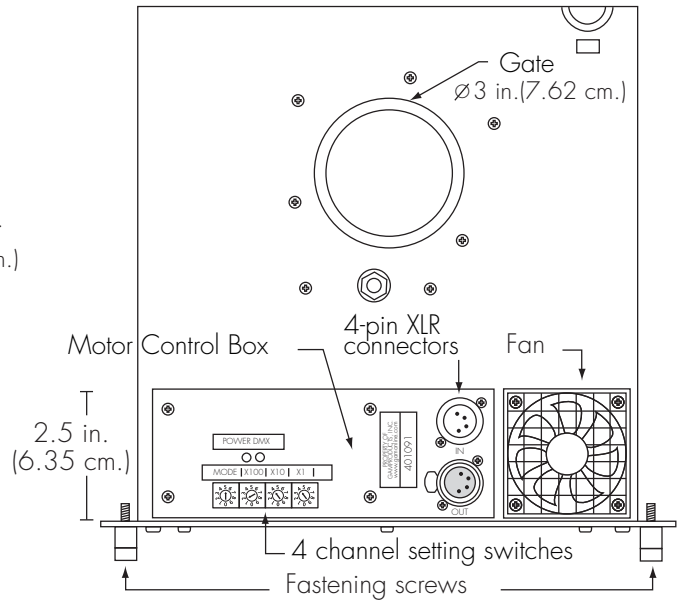

Width:	11.31 in (28.1 cm)
Height:	11.24 in (28.5 cm)
Depth:	3.5 in (8.89 cm)
Weight :	3 lbs, 5 oz (1.44 kgs)
With SX4 Case:	9 lbs, 10 oz (4.28 kgs)
Finish:	Matte Black Paint

CAUTION

When using a DMX device with a discharge lamp such as CDM or an HMI, it's suggested that you separate the power circuit for the discharge lamp from the DMX control device. When using DMX controlled units such as an Indexing TwinSpin[™] or SX4[®] Gobo Changer or DMX Loop Tray, the "noise" from the discharge lamp ballast may cause some interference and or damage the electronics. For best results we recommend providing separate line voltage to the DMX devices and the discharge light fixture.
